

# HIVE'S TWO-WEEK SESSION

Opportunity for new campers graduating from 2<sup>nd</sup>-4<sup>th</sup> Grade

Designed specifically for first-time campers, this program is crafted to provide the ultimate blend of fun, learning, and personal growth. Younger campers interested in the adventure of an overnight camp can sample the transformative experience of Hive in a program specially designed to provide the same enriching experiences over a shortened two-week schedule.

Choosing a summer camp for your child is a big decision. Whether you're considering enrollment or just want to learn more, I'm here to help.

## Key Details

**Dates:** July 22 – August 5, 2025

**Age Group:** 8½ - 10-year-olds

**Eligibility:** Camper's first summer

## GETTING THE CAMP EXPERIENCE

Campers participating in our two-week program will live together and participate in regular camp activities alongside other Hive campers. They will arrive at camp at the same time as 2<sup>nd</sup> Session campers, allowing them to blend seamlessly into the camp community. They will get the chance to learn new skills, make friends, and experience the fun of overnight camp in a supportive environment. As the program comes to an end, campers will have the option to leave on August 5 or to stay for the entire session, which will be decided with their parents.

## WHY HIVE?

- Dynamic activities that foster independence and creativity
- Expertly crafted programming for active, inspired young minds
- Immersive, supportive community with dedicated counselors
- Unplug from screens and explore the wonders of the great outdoors

**Campers in our two-week program typically live in platform tents with one counselor and two other program participants.**

**These tent families live alongside Hivers of the same age and will be fully integrated into the camp community.**
